

tl//raws: Lingwe
editor: boredom

i did this real quick...
when i cleaned the pages i didnt realize a few were doubles,
i did all the redraws freehand so they might look awkward
and screw action lines >< im not that concerned about them
to bother redrawing them all

i won't be doing this when its a weekly thing...
i did this hoping someone would like it and pick it up.

if you like this project go to
mangahelpers.com
and thank Lingwe for scanning and t'ing it.
